

Career Objective

I am seeking an internship opportunity to apply academic knowledge in web development field or I.T. industry, contribute to projects, and gain hands-on experience in a dynamic professional environment."

Education

Sage University Indore | University

Pursuing

7.45 CGPA

Govt. Excellence High Secondary School | Board

2020 | Science

70 Percentage

Projects

IOT Based Sales Analysis System Using ML & AI | Team Leader

4 Month

"Our project, titled 'IoT-based Sales Analysis System Using ML & AI,' aims to revolutionize sales analytics by leveraging the power of Internet of Things (IoT), Machine Learning (ML), and Artificial Intelligence (AI). By integrating IoT sensors with sales data collection devices, we capture real-time sales information from various sources. This data is then processed and analyzed using ML algorithms to identify patterns, trends, and insights.

Detail Info

Address

kelod, Teh-Mhow,Dist-Indore, Indore , India

Birth Date

15/07/2003

Gender

Male

Marital Status

Unmarried

Other Info

Languages Know

English, Hindi

Skills

HTML5 (controls the layout, appearance, and formatting of web pages, including aspects such as colors, fonts, spacing, and responsive design. CSS allows for separation of content from presentation, enabling developers to create visually appealing and user-friendly websites)
CSS (It controls the layout, appearance, and formatting of web pages, including aspects such as colors, fonts, spacing, and responsive design.)
Front-end Developer (It encompasses various disciplines such as front-end development, back-end development, and full-stack development. Web developers use programming languages, frameworks, and tools to build functional and interactive websites that meet client requirements and user needs.)
